## NEWS AND VIEWS . . .

### And What Have You

By BOB CRAIG

From the looks of the fields around Hamlin our farmers are on the verge of a bumper grain sorghum crop, but unfortunately, if the price trend continues it will be like the wheat crop just past — too cheap to pay expenses.

According to a news release that we received this week from the Texas Farm Bureau the current average price for the crop now being harvested in South Texas is about \$1.50 per hundred-weight.

The Farm Bureau, according to the release, is trying to work through other state Farm Bureaus and find or develop a better market for the grain being harvested in South Texas through feed lots and exports.

According to the TFB, buyers are apparently waiting for the prices to dip lower before buying. Because of this, the success or failure of this effort by this organization could have a strong effect on our economy.

For if a market cannot be found soon for the South Texas grain and the market drops some more before our grain is harvested then we will be in trouble.

While this effort may not be successful, at least it is an organized attempt to solve part of the farmer's problems. Some way must be found and soon to bring the farm product prices up to the level of his increasing costs.

And with the trend in Congress to city orientated legislators it would seem that the best hope in the long run lies at the market-place rather than in the halls of Congress. But this will take a better organized effort than has been tried in the past. Not only will all of the farmers have to get together and work in the same direction but everyone dependent on these farmers for a living will have to pitch in and help for their own survival.

But, again this is where part of the farmers' problem lies, even the farmers cannot get together in one organization and work in the same direction. And with the farmers going off in different directions, what chance has the non-farmer got of figuring out how best to help.

Basically there are two farm organizations, the Farm Bureau and the Farmers Union. And if you can put a tag on them you would have to say that the Farm Bureau is basically a Republican or conservative group coming out of the Mid-West which is a Republican stronghold and the Farmers Union is more of a Democratic or liberal group.

And this is where the problem lies because both groups are trying to solve the same problems by going in two different directions. With the farmer losing more and more of his voice in Congress, it does not help matters any when he splits what support he does have. And it sure makes it hard for the non-farmer to know how to help.

In cotton, an effort has been made to get around this problem by forming another organization which in this area is the Rolling Plains Cotton Growers, Inc. It still remains to be seen whether or not this will be the answer. It will be, if the cotton growers can compromise their differences within this third organization and work for a common goal.

But even this third voice of the farmer is having trouble raising operating money and is seeking additional members outside of the farmers themselves.

When you add the related industries to the voice of the cotton farmer you should add strength to their cause, but too often you just add to the problem. For the farmer is more concerned about the price of his product than he is about the volume since if he loses money on a 100 bales he would just lose more money on 500. But when you get beyond the farmer you find more interest in blager crops since the chemical and fuel sellers do better on more acreage and the processors make more money on more bales.

But from the long range view the only answer is for the farmer to make a living off what he produces even if it means curtailing his operation and supporting him with subsidies. This may have a short range effect on the related industries but if the farmer leaves the farm it will hurt these related industries even more.

## Research Report Shows 1967-68 Texas Cotton Crop Down 16.1 %

AUSTIN — Texas cotton production was down 16.1 per cent during the 1967-68 season, the Cotton Economic Research office at the University of Texas reports.

Tabulations as of Jan. 16, 1968, showed 2,638,896 running bales ginned. At the same time in 1967 there were 3,149,925.

The estimated value of lint cotton and cottonseed produced in Texas was down more than \$37 million from that of the previous season, the "Summary Report" said.

# THE FAMILY LAWYER

## Legacies of Hate

"To my sister, one dollar and my curse."  
 "To my son-in-law, a good stout rope with which to hang himself."  
 "To my partner, my portrait of a viper."

These hateful legacies are examples of a peculiar phenomenon in the field of wills. The maker of a will knows that his words will probably not come to light until after his death—when he is safe from retribution. Under this protection, as one expert put it: "Human nature removes its mask."

Are such legacies valid? In making a will, is there a "right to be mean?"

Generally speaking, the answer is yes. The law is reluctant to con-

demn the motives of someone who is not present to make explanations. No court can be sure what real grievances might have lain hidden in his heart.

Besides, the very idea of a will is to give the maker the right to pick and choose among the possible objects of his bounty, favoring one, rejecting another.

On the other hand, if a will is sufficiently unnatural, that may be some indication that the person who made it was either under undue influence or mentally incompetent.

For instance: a spinster's will left all her money to a niece, cutting off the brother she had long loved dearly. This was held sufficiently strange, along with other circumstances, to justify the conclusion that the woman had been subjected to undue influence by the niece.

Furthermore, unnatural provisions won't be upheld if they are contrary to state laws or in conflict with public policy. Thus, a court would not approve instructions to "Burn all my money" or "Hire a gunman to do away with my boss." Fortunately, the average will does not reflect either venom or spite. Most people find something better to do with their last words than to leave a legacy of hate. Not many individuals care to be remembered that way.

# "Whatsoever Things"

By DONALD E. WILDMON  
MINISTER  
LEE ACRES UNITED METHODIST CHURCH  
TUPELO, MISSISSIPPI

There was a lady once who received news that she was going to have an honored guest for dinner the next day. She was very excited for the guest was a very important person. The next morning she got up very early and began preparing the meal.

About the middle of the morning she heard a knock on the door at the rear of the house. "That just couldn't be him," she thought. "Surely he wouldn't be here this early in the day." She went to the back door hoping that this would not be her visitor. When she opened the door she found a beggar there. "What do you want?" she asked in a grouchy tone. "I am hungry, madam," the beggar said. "I will gladly work for a little if you will let me." She stared at the beggar for a moment with hate burning in her eyes. "Go away from here before I call the law!" she shouted as she slammed the door in his face.

Then she went back to preparing her meal for her visitor. She was upset that she had been interrupted by the common beggar. Soon her mind was back on the meal and the honored guest. She was working hard when suddenly a knock came at the front door. "That's probably him," she thought as she went to the door. When she opened the front door she was surprised to find that it wasn't her guest but a boy from the poor family down the road. "Mama wanted to know if she could borrow some flour," he said. "She said we

would pay it back just as soon as possible. We don't have very much to eat." She snapped at the young lad. "Go home and tell your mother not to bother me anymore." Again she gave the door a good slam.

"You can't get anything done around here for the bums," she thought as she went back to her work. Soon the knock was heard at the front door again. She had the meal ready now. She tidied herself up and put on a big smile and went to the door. She was surprised when she opened it. It wasn't the expected guest but a little Indian girl. "Miss," the little girl said, "would you like to buy some real nice gifts? They are very reasonable. And this is our only way to make a living since daddy died." The lady needed gifts, but she had never bought anything from an Indian because she considered them dirty. She was short with the girl. "I don't buy from Indians. I buy from clean merchants." Then the door slammed shut.

Since the meal was ready the lady sat down to wait for her guest. She waited and waited. He was way past due now. As the day came to a close it was evident that he wasn't coming. "I wonder why he didn't come," she asked herself. The answer came back in a loud voice. "I came three times and you would not let me in."

The visitor was the Galilean Carpenter. We will let you decide who the lady was.—Five Star Features.

## Neinda Philosopher Has A Few Quarrelsome Remarks On Foul-Ups of Modern Progress

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One takes a wry look at progress this week.

Dear editor:

As everybody knows, cars have become so efficient and prevalent that you can now cross New York City on horseback quicker than you can by automobile, and I wasn't surprised to read in a newspaper I got up and walked 100 yards for last week that it is frequently quicker to fly by old-fashioned propeller planes than jets.

A jet will fly faster per mile, once it's in the air, but frequently it has to wait in line for other big jets to take off, then when it streaks to where it's going it has to circle around over the airport for two or three hours waiting for other jets to land.

This is what's known as carrying progress too far too soon, like educating a boy so much he won't work.

Or take the telephone. I read in that same paper an article bragging about how automatic equipment has enabled the telephone systems to handle the billions of telephone calls now being made daily in this country.

"If it weren't for automatic equipment," the article said "it would take every woman in the United States to serve as telephone operators to handle all the calls now being made every day."

Yeah, but if all the women were tied up as telephone operators, how much do you reckon that'd reduce the number of calls? Off hand I'd say by 85 per cent at least which would of course eliminate the need for all that automatic equipment.

Frequently man has a tendency to get so balled up in progress it slows him down to where he was before progress set in. I know a neighbor who spends more time and sweat trying to start his power lawnmower than it'd take to cut his grass with a push-type mower, and if more people would keep cows you wouldn't need any kind of mower.

And I never have understood the garbage disposal problem in cities. Why doesn't everybody keep a hog?

The Hamlin Herald

What joy in life is seen in those eyes. That smile is given freely to everyone. Now look at them both. Which one am I talking about? Aren't they both the same? No, she's not an exact, carbon copy, of her mother—for when you look again, you see that there is a generation between them. She wears the bright colors in her dress with the cute designs. Her dreams are different than her mothers. She is more outgoing. Yet in the mother you can see a quiet humor and in her closeness to her daughter, a gentle protectiveness. Her mother's dreams are sometimes too ambitious, but in the "Encouragement Department" she works just fine.

There is one dream and ambition they both have, however; and that is to be like our Lord and Saviour Jesus Christ, and to be of service to the church. Their goodness is of God.

"For the eyes of the Lord are over the righteous, and his ears are open unto their prayers: but the face of the Lord is against them that do evil." 1 Peter 3:12.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

The Hamlin Herald

Mr. Farmer! Mr. Businessman!  
WE NEED YOUR HELP.

Cotton is by far the major income crop in the Rolling Plains, accounting for about 40% of total agricultural income. Annual sales average well over \$50 million. Processing, transportation, storage, and insurance provide additional millions. Farmers are the biggest users of gasoline, tires, machinery, fertilizers, insecticides, and credit. The majority of all citizens in this area directly or indirectly, depend on cotton for most of their income.

Rolling Plains Cotton Growers, Inc., is a local non-profit organization, chartered by the State of Texas, to promote the welfare and protect the interests of the cotton industry in the 32 county Rolling Plains area. Activities are carried out under the direction of a 64 man Board of Directors, 2 from each county, who serve without pay. The organization has been tremendously successful, and has earned State and National recognition.

RPCG depends on voluntary contributions for operating funds. Due to the short crop in 1967, income was reduced 25%. Costs are up. We must have additional funds to continue to represent this area.

Help your neighbors! Carry your share of the load! Mail your contribution today to Rolling Plains Cotton Growers, Box 1108, Stamford, Tex. 79553.

## YEARS AGO--

### 51 YEARS AGO

Friday, Aug. 3, 1917

Sunday the Orient road began the new schedule of their passenger service. This gives all the roads in Texas "a daylight" train, something they have not had in about three years. The old way, the train would be somewhere near Sweetwater. The same vexing situation prevailed from San Angelo north, hence it is easy to see that Texas people are glad of the change.

The north bound train now arrives from San Angelo at 10:40 a.m. and the south bound arrives at 4:50 p.m.

But there is one thing strange about changing schedules on railroads — why do they not tell the public a few days ahead of the change. Who knew that a change was to be

made Sunday? It very likely caused some disappointments, and it would have been so easy to announce their intentions. But the same thing took place on the Katy some two weeks ago and no notice.

Information from Washington is that our postmaster, Y. C. White, has again received the appointment at this place and has been confirmed by the Senate.

This week a deal was closed whereby Spencer & Berry becomes owners of the Hamlin Lumber Company stock.

Hibbs Milsap has accepted a position as fireman for the Santa Fe Railroad with headquarters at Slaton. Mrs. Milsap returned from there Thursday after seeing her husband off on the right track.

Thursday at noon about fifty boys, with Hamlin as

their address, received notices to appear at Anson for examination. We regret that it is too late to publish this week.

### 25 YEARS AGO

(Friday, July 30, 1943)

Wednesday was an important day in the life of the newly formed Mid-West Co-operative Oil Mill of Hamlin. All papers were signed and acknowledgements taken and the mill is now full-fledged co-operative.

Reliable information has been given that a young son of Mr. and Mrs. J. C. Hartwell near Tuxedo has been stricken with the dread disease of Poliomyelitis. Just how and why this terrible disease should strike in a high clean community, as we know exists in the Tuxedo community, is hard to understand. It is hard to fight a thing we know so little about.

For several weeks the building just north of the Wilson Hardware Store has been undergoing renovation, repairs, and fitting for a cafe. The enterprising proprietor is Elmer Brewer, who has been in Hamlin so long till every person and most of the dogs know him. Just what will be the name of this eating place was not known when the Herald went to press.

Last Sunday the Rev. Jack Watkins delivered his farewell sermon to the Foursquare Church, pending his going to pastor the Hale Center church. The church announces the appointment of Rev. Robert C. Crager recently from the state of Mississippi.

The American food problem is growing more pressing each month and can be helped by planting fall gardens where moisture conditions will permit, according to James M. Binion, County Agent, and Mrs. Clara Brown Long, County Home Demonstration Agent. The more food we produce at home the more it adds to the total supply by avoiding bringing in the food we eat from other areas.

Mr. and Mrs. Frank Waggoner and Jerry went to Oklahoma City on business Monday.

### 10 YEARS AGO

Arson has been indicated in several of the more than 50 grass and trash fires of the past two months, it was pointed out this week by James Josey, Hamlin Volunteer Fire Department chief, and city and county officers, who have been called in to make investigations.

Forty-one fires have been reported in the city limits, and 14 calls made in the rural areas since June 1, Josey says, which is a record for all time.

Believing the old fellows of the community deserve recognition members of the Hamlin Lions Club are extending an invitation to members of the

persons; and provided further, that the total amount of money to be expended per fiscal year out of state funds for assistance payments only to recipients of Old Age Assistance, Aid to the Permanently and Totally Disabled, Aid to the Blind, and Aid to Families with Dependent Children shall never exceed Seventy-five Million Dollars (\$75,000,000).

"Nothing in this Section shall be construed to amend, modify or repeal Section 31 of Article XVI of this Constitution; provided further, however, that such medical care, services or assistance shall also include the employment of objective or subjective means, without the use of drugs, for the purpose of ascertaining and measuring the powers of vision of the human eye, and fitting lenses or prisms to correct or remedy any defect or abnormal condition of vision. Nothing herein shall be construed to permit optometrists to treat the eyes for any defect whatsoever in any manner nor to administer nor to prescribe any drug or physical treatment whatsoever, unless such optometrist is a regularly licensed physician or surgeon under the laws of this state."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November 1968, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendment raising the limit on the amount that may be expended in any one year out of state funds for Public Assistance payments only to Seventy-five Million Dollars (\$75,000,000)."

"AGAINST the Constitutional Amendment raising the limit on the amount that may be expended in any one year out of state funds for Public Assistance payments only to Seventy-five Million Dollars (\$75,000,000)."

AUSTIN — Campaigns will be shaping up soon on 14 more amendments to the state constitution. All 14 of the proposed changes in the state's basic laws will be voted on at the general election November 5. Some are far-reaching, others routine.

Here are the amendments in the order in which they will appear on the November 5 ballot:

1. Revising provisions for management and administration of the state employee's retirement system and permitting investment in securities other than government bonds.

2. Raising the state's welfare spending ceiling from \$60 million to \$75 million.

3. Permitting investment of the Permanent University Fund by UT regents in certain types of securities, within the "prudent man rule."

4. Allowing Dallas County to issue road bonds on vote of property taxpayers.

5. Authorizing a raise in state legislators' salary from \$4,800 to \$8,400 a year and extending the per diem expense allowance of legislators (\$12 a day) to 140 days of a regular lawmaking session. (Present limit is 120 days).

6. Allowing the legislature to exempt from property taxes equipment installed by industrialists to control air or water pollution.

7. Phasing out the state property tax after Dec. 31, 1976, beginning next year, except that portion for higher education institutions.

8. Eliminating the requirement that the governor, secretary of state and comptroller approve contracts for printing and paper.

9. Providing for contributions to the teacher retirement system on the basis of full salaries. (Contributions now are limited to \$504 a year).

10. Allowing the legislature to provide for refund of state tax on cigars and tobacco products sold at retail in Texas.

11. Authorizing the legislature to permit consolidation of officers and governmental functions in El Paso and Tarrant Counties.

12. Giving the legislature power to authorize cities and counties to issue revenue bonds for industrial development and purposes and permit private concerns to operate plants thus financed.

13. Exempting from property tax certain property temporarily stored in public warehouses.

14. Spelling out that legislators will not be ineligible for other offices because their terms extend a few days into January.

GOP OFF FOR MIAMI — Most Texas Republican delegates to the GOP national convention will be shuffling off to Miami Beach this weekend. Opening session is Monday, August 5.

First caucus of the Texans (who have 56 votes in the presidential election) will be held at the City Park on Tuesday evening, Aug. 26.

Les Cowan, son of Mrs. Florence Cowan of Hamlin, and former outstanding player at McMurry College and the Los Angeles Rams in professional football, recently was named head coach at Wylie High School.

Mrs. Marvin D. Carlton was honored with a pink and blue tea in the home of Mrs. Clyde Grice Tuesday evening from 7:00 to 9:00 o'clock.

Nine of the 11 Hamlin senior Boy Scouts who recently attended a two-week stretch of outdoor camping at Philmont Boy Scout Ranch in Northeastern New Mexico, and their leader, Weldon Johnson, provided the program feature at the weekly luncheon meeting of Hamlin Lions Club last Tuesday noon at the oil mill guest house.

Appearing on the program and presenting various phases of the several days portable camping tour were Ray Johnson Jr., Jerry Smith, Jerry Duncan, Bill Ritchey, Henry O'Neal, Jimmy Shivers, Bob Johnson, Santana Contreras and John Ferguson.

A boy for Mr. and Mrs. Kenneth Cary, who arrived July 20, tipped the scales at a heavy eight pounds three and one-half ounces. He will be known as Stephen Lewis.

of Austin, delegation sergeant-at-arms.

CONNALLY TRIMS BUDGET — Governor Connally trimmed the 1969 state budget enacted by the special legislative session \$1.3 million and sternly lectured lawmakers for setting up \$1.4 million in Agriculture Department appropriations as a lump sum item which he could not veto selectively.

Governor also vetoed seven controversial riders including those which sought to shut off funds for policing air pollution control by cotton gins and prevent use of state planes and helicopters to catch traffic law violators. Connally took

veto axe to these spending items:

\$600,000 for temporary building to house the comptroller's department; \$275,000 for two new elevators in the capitol; \$187,500 for the Port Lavaca causeway state park; \$90,000 for Somervell County state park land; \$91,000 for legal clerks in 13 courts of civil appeals; \$50,000 for insurance claim investigation; \$200,000 for Blinn College to operate Old Washington State Park museum; \$17,500 for a deputy administrator for the Liquor Control Board; \$16,500 for assistant executive director of state board of control; and \$13,000 for assistant

director of auditing for LCB. COURT SPEAKS — State Supreme Court refused to hear John Robert McClelland's suit to force Harris County GOP Chairman Mrs. W. M. Palm and State GOP Chairman Peter O'Donnell to certify him as the Republican candidate for the House of Representatives in the November election.

McClelland got 6,659 votes to his closest opponent's 2,992 in the GOP primary race. But the county chairman refused to certify McClelland, claiming he would not have lived in the district for a full year prior to the November 5 election.

SENATE JOINT RESOLUTION No. 4. Proposing an amendment to the Constitution of the State of Texas, amending Section 48a of Article III thereof, so as to provide for contributions on the basis of the full salary of members of the Teacher Retirement System; providing for the submission of the proposed amendment to a vote of the people at an election and for proclamation and publication thereof.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 48a of Article III of the Constitution of Texas be amended so as to read as follows:

"Section 48a. In addition to the powers given the Legislature under Section 48, Article III, it shall have the right to levy taxes to establish a fund to provide retirement, disability and death benefits for persons employed in the public schools, colleges and universities supported wholly or partly by the state; provided that the amount contributed by the state to such fund each year shall be equal to the aggregate amount required by law to be paid into the fund by such employees, and shall not exceed at any time six percentum (6%) of the compensation paid each such person by the state and/or school districts; and provided that no person shall be eligible for retirement who has not rendered ten (10) years of creditable service in such employment, and in no case shall any person retire before either attaining the age fifty-five (55) or completing thirty (30) years of creditable service, but shall be entitled to refund of moneys paid into the fund.

"Moneys coming into such fund shall be managed and invested as provided in Section 48b of Section III of the Constitution of Texas; provided a sufficient sum shall be kept on hand to meet payments as they become due each year under such retirement plan, as

may be provided by law; and provided that the recipients of such retirement fund shall not be eligible for any other state pension retirement funds or direct aid from the State of Texas, unless such other state pension or retirement fund, contributed by the state, is released to the State of Texas as a condition to receiving such other pension aid; providing, however, that this Section shall not amend, alter, or repeal Section 63 of Article 16 of the Constitution of Texas as adopted November, 1954, or any enabling legislation passed pursuant thereto."

Section 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1968, at which election each ballot shall have printed thereon the following words:

"FOR the amendment to Section 48a of Article III allowing contributions to be made on the basis of full salary of members of the Teacher Retirement System of Texas."

"AGAINST the amendment to Section 48a of Article III allowing contributions to be made on the basis of full salary of members of the Teacher Retirement System of Texas."

Each voter shall mark out one of said clauses on the ballot leaving the one expressing his vote on the proposed amendment. If it appears from the returns of said election that a majority of the votes cast were in favor of said amendment, the same shall become a part of the state constitution and be effective from the date of determination of such result and the Governor's proclamation thereof.

Sec. 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said special election and shall have the same published as required by the constitution and laws of this state.
